

# fiberclean™

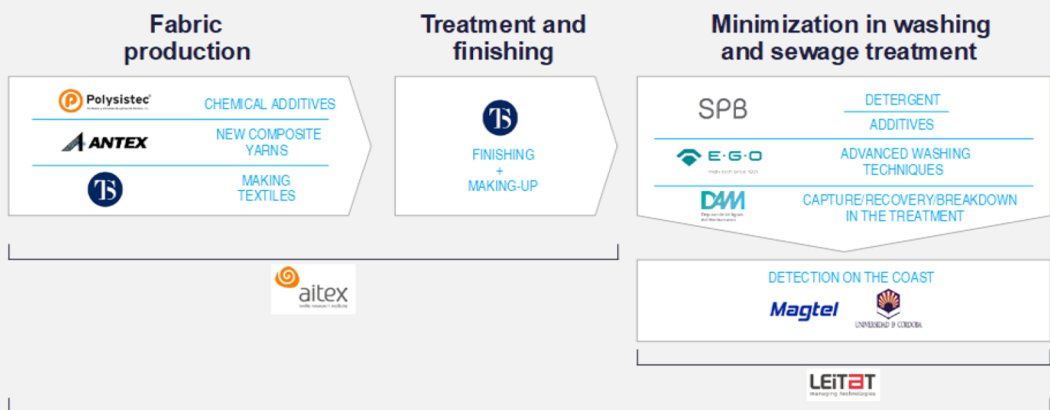

*Because every drop of water should be just a water droplet*

80% of marine waste consists of  
**microplastics**

Fiberclean focuses on **blocking fibrillation** of fabrics and garments

**fiberclean™ performs new solutions for:**

Microfiber  
**BLOCKING**  
in yarns, fabrics  
and apparel

Water  
**CLEANING**  
in industry,  
laundries and  
sewage plants

**WATCHING**  
water effluents  
reaching rivers  
and coasts

**CERTIFYING**  
the whole  
textile value  
chain

**The clean water  
textile project**
