

# Responsible textile solutions

With the launch of the R/TURN collection, Techs has reached another milestone in its long history in workwear and protectivewear sectors.

The same social and green principles from the known R/TURN label are also reflected in the widened and advanced fabrics offer: workwear, industrial laundry, protectivewear and militarywear.

All of the R/TURN articles are passing through integrated, transparent and traceable processes of:

# Recycle Reuse Reduce

## Responsible manufacturing

---

### Transparent and traceable process

---

### Sustainable product and production

Saving of raw materials and valuable resources

Reduction of waste and emissions

Eco certified dyes

Use of sustainable fibers

---

### Rewarded with eco-friendly certificates

---

### Durability = Sustainability

---

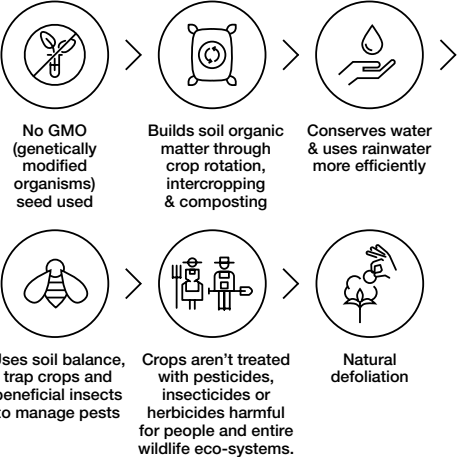

**Organic Cotton is grown using responsible methods and materials that have a low impact on the environment.**

**Crops aren't treated with pesticides, insecticides or herbicides. These toxins are harmful for farmers and workers, us as consumers, and entire wildlife eco-systems.**

**Non-allergenic  
Comfortable  
100% plant-derived  
Controlled traceability**

Official eco-friendly certificates

\*Certificates based on composition percentages

**BCI cotton ensures a responsible use of cotton: reduces the impact of water and pesticide use on human and environmental health; improves soil health and biodiversity; promotes better working conditions and increases the traceability along the cotton supply chain.**

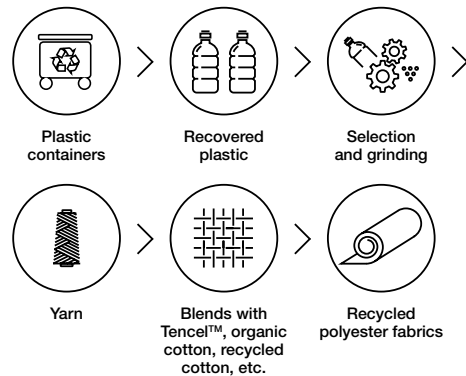

**100% plant-derived  
Sustainable  
Eco-friendly  
Better quality  
Controlled traceability  
Non-allergenic**

# recycled polyester

Recycled polyester is made from recycled materials (PET and polyester fabrics). Using more recycled polyester reduces our dependence on petroleum as the raw material for our fabric needs. The energy needed to make recycled polyester is less than what is needed to make the virgin polyester. Recycling PET to create the fabrics prevents it from going to landfill.

Eco-friendly  
Sustainable  
Controlled traceability  
High durability

Official eco-friendly certificates
